

EXPLANATION

QuickBite's Express Crises Impact Analysis

Overview :

QuickBite Express is a Bengaluru-based food-tech startup (founded in 2020) that connects customers with nearby restaurants and cloud kitchens.

Objective

A food safety incident and delivery outage in June 2025 caused customer backlash, order decline, and trust erosion.

Customer churn, partner attrition, and rising acquisition costs created an urgent need for data-driven recovery insights.

Requirements

Deliver detailed primary and secondary analysis to support recovery decisions

Requirement doc

detailed insights into the following :

- 1.Customer Segments
- 2.Order Patterns
- 3.Delivery Performance
- 4.Campaign Opportunities
- 5.Restaurant Partnerships
- 6.Feedback & Sentiment

Data

This dashboard is built using integrated data from multiple operational tables covering customer activity, order transactions, delivery operations, restaurant partnerships, and customer feedback.

- 1.orders
- 2.order_item
- 3.menu_item
- 4.customer
- 5.delivery_partner
- 6.delivery_performance
- 7.restaurants
- 8.ratings
